\$300 Million in Virtual Care Funding

Take advantage of over \$300 million in recent Virtual Care funding through the [The Federal Communications Commission's \(FCC\) two new programs: the COVID-19 Telehealth Program and the Connected Care Pilot Program](#). We encourage member organizations to apply before the funding runs out.

WISE Healthcare offers assistance and information regarding these programs and the associated applications to healthcare providers interested in using program funding to adopt virtual care technologies such as the [eConsult platform](#).

Please contact us at info@wise.healthcare or [visit our website](#).

Updates to Telehealth Guidelines

The Centers for Medicare & Medicaid Services (CMS) modified guidelines regarding telehealth to accommodate the transformation of healthcare delivery during the COVID-19 pandemic.

Click the links to learn more about [CMS Flexibilities to Fight COVID-19](#), the [expansion of coverage for telehealth services](#) and more [here](#).

Telehealth Strategy

It's never too early to start planning a long-term telehealth strategy for life during and after COVID-19.

WISE Healthcare is prepared to support and provide virtual care services through a range of services:

- health information technology
- workflow engineering
- professional services from first-rate, fully-credentialed, and licensed, board-certified specialist physicians through our affiliate, [HubMD](#)
- Technologies to better manage patients virtually, such as [Afya](#)—a specialist-engineered, AI-enabled app allowing smartphone users to quickly, accurately, and conveniently diagnose most medical conditions and reach appropriate care

Keeping Safe, Staying Strong

We hope you and your family are staying safe in these uncertain times.

The Center for Disease Control and Prevention's insights about [Prevention](#) and [Daily Life & Coping](#) are helpful resources.

We thank our brave healthcare professionals for their unwavering service and sacrifice.

Sajid Ahmed

CEO of WISE Healthcare
